MARINE/DEFENCE

**PRINT TIME 24 MINUTES****MATERIAL ALUMINIUM 6061****WEIGHT 660 G****PRINT COST \$66 (USD)**

This type C camlock fitting with a hose tail was printed in Aluminium 6061 for marine environments for use by the Royal Australian Navy. The resulting part was validated and field tested on board an Armidale class patrol boat. The positive results proved the viability of producing certifiable military maritime parts with SPEE3D technology.
